**Summary of Legislation:** This bill provides that the Indiana Dairy Industry Development Board is a separate body corporate and politic. The bill provides that the definition of "milk" in the Board statute is restricted to milk produced by cows. The bill provides that the Board may make certain determinations based on year end milk marketing figures from any source the board considers reliable. It provides that the number of Board members to which a producer is entitled is based on funds retained in Indiana. The bill makes other changes relating to the composition of the Board. It provides that board members are entitled to a salary per diem determined by the Board and are entitled to receive reimbursement for travel and other expenses as determined by the Board. The bill also provides that the salary per diem and travel and other expenses may not exceed limits set for expenses for employees of the executive branch of the federal government while away from home in travel status.

**Effective Date:** July 1, 2004.

**Explanation of State Expenditures:** Changing the status of the Indiana Dairy Industry Development Board to a body corporate and politic is not expected to have a significant fiscal impact on the state, the Office of the Commissioner of Agriculture, and the Board.

*Background on the Indiana Dairy Industry Development Board:* The Board's administrative costs are funded through a checkoff program with Indiana milk producers. State law allows the Board to use up to 5% of the funds received from the producers for administrative charges. The remaining funds are used for federally qualified programs related to milk related promotion, development, and research. Money received by the Board is deposited with Treasurer of State in the Dairy Industry Development Fund. The Board is required to submit an annual report to the Commissioner of Agriculture. The Commissioner may also participate in

Board meetings as an ex officio member.

State employees do not provide staff support to the Board.
